

How to study with this course

We are delighted that you have chosen our course. We would like to take this opportunity to give you a few tips on how to get the most out of the course.

1. Introduction

First of all, we offer you an introduction to the module so that you can familiarise yourself with the content in a relaxed manner. This introduction is your ideal guide to finding your way around our course and understanding the principle of self-study.

2. Learning Content

After this brief introduction to the course, you will find the learning content divided into three modules to help you find your way around.

- ✓ Module 01: Communication, Guidance and Counselling
 - ✓ Module 02: Theory-practice Transfer and instructing Learners in Nursing Care
 - ✓ Module 03: Evaluation and Learning Assessment
-
- Each module contains attractively presented learning content that you should work through in the first instance. The learning content is divided into lessons.
 - For each lesson, we have prepared an assignment that we would particularly like to recommend to you.
 - At the end of each module, you will find an audio summary that concisely summarises the learning content of all the lessons in the module. This means that you can sit back and relax and concentrate on the essentials.
 - A folder at the end of the course contains all the documents from the module, as well as further sources and recommended reading.

3. Outro

Once you have completed the course, you will be offered a concluding module that provides a tailored outlook on the topic and further practical insights.
